EXPERIENCE

Front-End developer

Accenture - ARG
July 2021 - Present

- Work on a high-performance project for Top fast-food retailers on AI-Solutions Department for Microsoft, being one of the official presenters of the apps.
- Transform UX/UI designs to web applications.
- As part of an agile team implement applications and features on a greenfield project with focus on front-end components.

Front-End developer

PIP-POP Studios - Mar del Plata, Buenos Aires, ARG
March 2021 - June 2021

- My roll here was design and build website from scratch for Startup game company.
- Responsibilities: Continuous contact with the Back-End team for a correct operation of the page. Validate input before submitting to back end. Responsive design for all devices. Translate UI/UX design wireframes to actual code.
